Manager on duty stated a large party of 40 people became upset because it was taking too long to receive their bills. She added, some of them started to cause a disturbance and threatened to leave without paying. She also informed me some of the guests used profanity and disrespected her. Manager requested from police to standby in case the group did not comply or try to leave without paying.

I spoke with one of the guests and she advised she will make sure all the bills are accounted for, which she did so. I also advised her to contact cooperate in reference to any concerns they may have about the manager on duty. I provided them with cooperate's number and my business card per her request.
